

## Further information about Promotion Prep’s e-learning packages

The e-learning packages can be used on desk tops and tablets.

### Navigating around the system

As soon as you purchase the product you will probably want to flick through it so see what is involved ... use the navigation bar to go back to the beginning.

If you finish and it asks you to submit don't worry – you can start again.

HOWEVER, if you have started work on the package, haven't finished and then submit you will have to start again with your answers (although you can print off your submitted version and retype it in).

Don't submit until you are absolutely sure you have completed it. You will not lose versions that you have submitted.

If you don't see the course navigation bar there are a few steps to take:

1. Log in using another browser – e.g. Firefox, Microsoft Edge or Google Chrome
2. Make sure the edit function is on

To enable us to continue developing the e-packages and make sure that they meet your needs, we will be sending out a short survey in approximately 4-6 weeks-time to check how useful you have found the whole process and whether any further support is required.

We would be really grateful if you could spare the time to complete this, update us on your progress and help ensure that we shape future products and services to maximise the support required.

Good luck and wishing you every success.
